The Practice may use and/or disclose your PHI for the purposes of:

Treatment - In order to provide you with the health care you require, the Practice will provide your PHI to those health care professionals, whether on the Practice's staff or not, directly involved in your care so that they may understand your health condition and needs.

Payment - In order to get paid for services provided to you, the Practice will provide your PHI, directly or through a billing service, to appropriate third party payers, pursuant to their billing and payment requirements.

Health Care Operations - In order for the Practice to operate in accordance with applicable law and insurance requirements and in order for the Practice to continue to provide quality and efficient care, it may be necessary for the Practice to compile, use and/or disclose your PHI. We may also share medical information about you with the other health care providers, health care clearinghouses and health plans that participate with us in "organized health care arrangements" (OHCAs) for any of the OHCAs' health care operations. OHCAs include hospitals, physician organizations, health plans, and other entities which collectively provide health care services. A listing of the OHCAs we participate in is available from the Privacy Official.

Workers' Compensation - We may disclose your health information as necessary to comply with workers' compensation laws. For example, to the extent your care is covered by workers' compensation, we will make periodic reports to your employer about your condition. We are also required by law to report cases of occupational injury or occupational illness to the employer or workers' compensation insurer.

Appointment Reminders

- a) Your health care provider or a staff member may disclose your health information to contact you to provide appointment reminders. If you are not at home to receive an appointment reminder, a message will be left on your answering machine, voice mail, text, or with the person who answers the call.
- b) You have the right to refuse us authorization to contact you to provide appointment reminders. If you refuse us authorization, it will not affect the treatment we provide to you.

Family/Friends

The Practice may disclose to your family member, other relative, a close personal friend, or any other person identified by you, your PHI directly relevant to such person's involvement with your care or the payment for your care unless you direct the Practice to the contrary. The Practice may also use or disclose your PHI to notify or assist in the notification (including identifying or locating) a family member, a personal representative, or another person responsible for your care, of your location, general condition or mortality. However, in both cases, the following conditions will apply:

- (a) If you are present at or prior to the use or disclosure of your PHI, the Practice may use or disclose your PHI if you agree, or if the Practice can reasonably infer from the circumstances, based on the exercise of its professional judgment that you do not object to the use or disclosure.
- (b) If you are not present, the Practice will, in the exercise of professional judgment, determine whether the use or disclosure is in your best interests and, if so, disclose only the PHI that is directly relevant to the person's involvement with your care.

NON-AUTHORIZED CONSENT

The Practice may use and/or disclose your PHI, without a written Consent from you, in the following additional instances:

- (a) De-identified Information - Information that does not identify you and, even without your name, cannot be used to identify you.
- (b) Business Associate - To a business associate if the Practice obtains satisfactory written assurance, in accordance with applicable law, that the business associate will appropriately safeguard your PHI. A business associate is an entity that assists the Practice in undertaking some essential function, such as a billing company that assists the office in submitting claims for payment to insurance companies or other payers.
- (c) Personal Representative - To a person who, under applicable law, has the authority to represent you in making decisions related to your health care.

(e) Communication Barriers - If, due to substantial communication barriers or inability to communicate, the Practice has been unable to obtain your Consent and the Practice determines, in the exercise of its professional judgment, that your Consent to receive treatment is clearly inferred from the circumstances.

(f) Public Health Activities - Such activities include, for example, information collected by a public health authority, as authorized by law, to prevent or control disease and that does not identify you and, even without your name, cannot be used to identify you.

(g) Abuse, Neglect or Domestic Violence - To a government authority if the Practice is required by law to make such disclosure. If the Practice is authorized by law to make such a disclosure, it will do so if it believes that the disclosure is necessary to prevent serious harm.

(h) Health Oversight Activities - Such activities, which must be required by law, involve government agencies and may include, for example, criminal investigations, disciplinary actions, or general oversight activities relating to the community's health care system.

(j) Law Enforcement Purposes - In certain instances, your PHI may have to be disclosed to a law enforcement official. For example, your PHI may be the subject of a grand jury subpoena. Or, the Practice may disclose your PHI if the Practice believes that your death was the result of criminal conduct.

(k) Avert a Threat to Health or Safety - The Practice may disclose your PHI if it believes that such disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public and the disclosure is to an individual who is reasonably able to prevent or lessen the threat.

(l) Workers' Compensation - If you are involved in a Workers' Compensation claim, the Practice may be required to disclose your PHI to an individual or entity that is part of the Workers' Compensation system.

PRACTICE'S REQUIREMENTS
